Give a Day of Service to the Children of Boston at EB 2015

Since 2009, ASPET members attending the ASPET Annual Meeting at Experimental Biology (EB) have given a day of volunteer service in the local communities (New Orleans, Pasadena, Washington DC, and San Diego). Volunteer activities have ranged from home construction, to painting, cleaning, stocking, food preparation and service.

The Behavioral Pharmacology Division of ASPET will again sponsor a volunteer opportunity at EB 2015 in Boston. On Friday 27 March 2015, we will spend the day at Cradles to Crayons (http://www.cradlestocrayons.org/boston) helping the children of Boston. Volunteers will also be able to prepare materials prior to the volunteer day (personalized well-wish notes that are placed in backpacks given to children at the start of the school year). Cradles to Crayons provides children from birth through age 12 living in homeless or low-income situations with the essential items they need to thrive at home, at school, and at play.

If you would like to volunteer, please contact Charles P. France at france@uthscsa.edu, (210) 567-6969 (voice), or (210) 567-0104 (fax) at your earliest convenience. Space is limited and further details will be provided to those who volunteer.
