The Department of Biology and Marine Biology at the University of North Carolina Wilmington invites applications for a full-time lecturer to teach 12 contact hours per semester. This is a nine-month, renewable, non-tenure track position. Preference will be given to candidates able to begin in January 2017, although August 2017 start dates will also be considered. Successful applicants are expected to teach Human Anatomy and Physiology, as well as introductory and/or upper-level courses as determined by candidate strengths and department needs. In addition, the individual will take an active role in departmental service. The department has an excellent record of faculty development and mentorship, and is committed to assisting new faculty to succeed. The department is especially interested in qualified candidates who can contribute, through their teaching and/or service, to the diversity and excellence of the academic community. For more information on the department, please visit http://www.uncw.edu/bio/.

For complete information and application instructions, please visit: https://jobs.uncw.edu/postings/6151

The priority consideration date is October 12, 2016, but applications will be accepted until the position is filled. The minimum degree requirement for the position is a MS in biology, allied health, or related field. A PhD in biology, allied health, or related field is preferred.

Questions regarding the application process can be directed to Lisa Noah (noahl@uncw.edu), while questions regarding the position can be directed to Dr. Richard Satterlie (satterlier@uncw.edu).

UNC Wilmington actively fosters a diverse and inclusive working and learning environment and is an equal opportunity employer. Qualified men and women from all racial, ethnic or other minority groups, protected veterans, and individuals with disabilities are strongly encouraged to apply.
